-

- ☐ **Master of Computer Applications (MCA):** Percentage: 65.9% University: Savitribai Phule Pune University.
- ☐ **Bachelor of Computer Applications (BCA):** Percentage: 73.4% University: V.K.S ARA University.

PROFESSIONAL EXPERIENCE

Project #1	Hubzu-Real Estate Auctions (House & Home)
Project Type	: Android
Organization	: Altisource Pvt Ltd
Technology	: Kotlin Coroutines, Koin DI, MVVM, Room Retrofit, Map, Design Androidx.
Role	: App Development (Design/Development/Jira/Automation Testing)

Project Description:

Buying real estate auction properties just got easier. Search and bid on properties on a leading home auction marketplace. Find detailed property information, receive auction alerts and easily place bids on properties on our free app.

Responsibilities:

- ☐ Worked on functionality and Rest API/UI/Deeplink/In App Messages/ Analytics.
- ② Creating XML/ Navigation Component/Androidx / Google material design/ Animation UI design and writing Background logic in Kotlin/ Coroutines /MVVM/Paging/ROOM/Google Map etc.
- ② Plan and design architecture, daily scrum meeting by analysing the project requirement
- ② <http://bit.ly/2Wa6XmX>

Project #2	Winds Captain (Marketing & Shopping)
Project Type	: Android
Organization	: <u>Winds-E-world</u>
Technology	: Kotlin Coroutines, Koin DI, MVVM, Room Retrofit, Map, Design Androidx.
Role	: Android Developer (Design/Development/Automation Testing)

Project Description:

Winds Captain is an on the go any store. WINDS Captains to view and manage all things related to their Executive Partners, Branch, and Service Charge details.

Responsibilities:

- ☐ Worked on functionality and Rest API/UI/Deeplink/In App Messages/ Analytics.
 - ② Creating XML/ Canvas/Androidx / Google material design/ Animation UI design and also writing Background logic in Kotlin/ Coroutines /MVVM/Paging/ROOM/Google Map etc.
 - ② Plan and design architecture by analysing the project requirement
 - ② <https://bit.ly/2PQx8gC>
-

Project #3	Winds (Marketing & Shopping and Biggest Rewards Program)
Project Type	: Android
Organization	: Winds-E-world ,
Technology	: Kotlin, Rxjava, MVVM, FCM, Retrofit, Glide, Material Design.
Role	: Android Developer (Design/Development/Automation Testing)

Project Description:

WINDS customer app brings the best of Online & Offline shopping clubbed with Utility Bill Payments and Gift Vouchers on the palm of your hand, so you can enjoy seamless purchase experience and lucky draw and win.

Responsibilities:

- ☐ Worked on functionality and UI/Deeplink/In App Messages/ Analytics.
 - ☒ Creating XML/ Canvas/Androidx / Material design/ Animation UI design and also writing Background logic in Kotlin/RxJava/MVVM/Paging/ROOM/Dagger2 etc.
 - ☒ Plan and design architecture by analysing the project requirement
 - ☐ <https://bit.ly/2QiVDBA>
-

Project #4	Smart Cricket (Sports)
Project Type	: Android
Client	: Gaames Merchandise, Bangalore
Organization	: Winds-E-world
Technology	: Java, Rxjava, MVP, Retrofit, Room, Glide, Graph
Role	: Android Developer(Maintenance & Bug fixes)

Project Description:

The Smart Cricket app seamlessly connects with a Bat Sense sensor to display a range of parameters that enable players and coaches to analyses and improve batting performance.

Responsibilities:

- ☐ Plan and design architecture by analysing the project requirement.
 - ☒ Involved in decision making for the betterment of the project.
 - ☒ Creating XML UI design and writing Background logic in Kotlin.
 - ☒ <http://bit.ly/2XL6vO4>
-

Project #5	Fresh Flowers (Flowers)
Project Type	: Android
Client	: Fresh flowers, Kuwait
Organization	: Savtech Educom Pvt. Ltd.
Technology	: Java, Retrofit, Glide, Material Design, firebase, Offline cache.
Role	: Android Developer (UI and Kotlin logic)

Project Description:

This Application belongs to the leading wholesale flowers Online service provider in Kuwait etc.

Responsibilities:

- ☐ Creating XML UI design and also writing Background logic in Kotlin.
- ☒ Plan and design architecture by analysing the project requirement.
- ☒ <https://goo.gl/rtAf7W>

Project #6	Gym Fitness (Health & Fitness)
Project Type	: Android
Client	: Japli Gym Fitness, US
Organization	: Savtech Educom Pvt. Ltd.
Technology	: Java, Retrofit, Glide, SQLite, Material Design, firebase, realm database.
Role	: Android Developer

Project Description:

Gym Fitness & Workout is a personal trainer which will provide you with a series of tools and information that will help you achieve all your goals.

Responsibilities:

- ☐ Worked on functionality and UI.
- ☒ Creating XML UI design and also writing Background logic in java
- ☒ Plan and design databases (realm) architecture by analysing the project requirement
- ☒ <https://goo.gl/7Cu5C4>

Project #7	Murhal Taxi (Customer & Driver) (Travel & Local)
Project Type	: Android
Client	: Tarha taxi, North Africa
Organization	: Savtech Educom Pvt. Ltd.
Technology	: java, Rxjava, Google map, FCM, Retrofit, Glide, and Design.
Role	: Android Developer

Project Description:

Murhal Taxi is a simple way for people to book a cab at their convenience. It offers a fast and easy way to book cabs anytime, anywhere saving you with ample amount of travelling time.

Responsibilities:

- ☒ Creating XML UI design and also writing Background logic in java
- ☒ Plan and design architecture by analysing the project requirement
- ☐ <https://bit.ly/2NGu6XO>

Declaration

I **Kaju Kumar** hereby declare that the above-mentioned details are true to the best of my knowledge.
